

Meeting logbook Entry Sheet

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 1

Start Time: 1:00 PM

Date: September 21st 2025

End Time: 3:00 PM

Items Discussed:

- Introduction session of external and internal supervisors for the FYP session
- Discussed about FYP on a video meeting via Microsoft teams.

Achievements:

- Gained knowledge about the importance of final year project
- Received information on researching & brainstorming for feasible ideas.

Problems:

- choose a topic for the FYP
- lack of clarity regarding the project ideas.

Tasks for the Next Meeting:

- Research about the domain which you are interested in for the final year project
- Research about existing similar projects

Internal Supervisor Name: Ms. Astha Sharma

External Supervisor Name: Mr. Srawan Shrestha

Meeting logbook Entry Sheet

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 2

Start Time: 1:00 PM

Date: November 2nd 2025

End Time: 3:00 PM

Items Discussed:

- Supervisors shared about the project idea in the classroom and recommended sites to explore and gain knowledge about the interested topics.

Achievements:

- learned about the different project ideas which may be feasible for FYP
- Insights on previous projects to gather knowledge.

Problems:

- To choose a specific area of interest for the project
- Research on previous project ideas and viewing its flaws.

Tasks for the Next Meeting:

- To bring atleast 2-3 ideas for the FYP
- Research on the topic of interest.

FINAL YEAR PROJECT

Meeting logbook Entry Sheet

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 3

Start Time: 2:00 PM

Date: November 9th 2025

End Time: 4:00 PM

Items Discussed:

- Discussed on the project ideas that I was interested about
- Supervisors gave insights on the ideas

Achievements:

- Was more clearer on the project I wanted to pursue for my final year project.

Problems:

- More Researched on the topic was required
- More new ideas and features were told to be added

Tasks for the Next Meeting:

- Finalized the topic and research on existing projects which were similar
- Research on the workflow of the development of my Project.

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 4

Start Time: 2:00 PM

Date: November 16th 2025

End Time: 4:00 PM

Items Discussed:

- Refined my fitness app idea and switching the objective to posture-tracking app
- Talked about new feature like animated bot to guide the workouts

Achievements:

- Got clearer idea and vision for the fitness application and programming & libraries to use in the application
- Finalized the posture-detection features on the application with the supervisors

Problems:

- Issue on whether to make the project on web or on mobile
- Research on body-movement detection issue on the user

Tasks for the Next Meeting:

- Research more on the posture detection topic of the user
- Research on the user's workflow on the application from the start to end

FINAL YEAR PROJECT

Meeting logbook Entry Sheet

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 5

Start Time: 2:00 PM

Date: November 23rd 2025

End Time: 4:00 PM

Items Discussed:

- Discussed about how the pass detection feature in the application could be used in practice
- Discussed on Application Calibration feature for the users

Achievements:

- Gained insights on SMART objectives in Report writing
- Got new ideas on Calibrating the user leaderboards to keep the user intake on the application

Problems:

- Need to do research on pedagogy on how users can be trained from beginner to intermediate to advance user

Tasks for the Next Meeting:

- Work on the proposal report of the Project
- Prepare a draft report to show in the next class
- Research on user's pedagogy techniques.

Meeting logbook Entry Sheet

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 6

Start Time: 2:00 PM

Date: 30th November 2025

End Time: 4:00 PM

Items Discussed:

- Proposal report structure discussed
- Proposal format, needs, requirements discussed

Achievements:

- Project Methodology cleared and proposal requirements questions solved

Problems:

- Complete proposal report
- Research on citations for the FYP

Tasks for the Next Meeting:

- Complete and submit the proposal report with proper format
- Work ^{on} the development of the project

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 7

Start Time: 2:00 PM

Date: December 7th, 2025

End Time: 4:00 PM

Items Discussed:

- Discussion on the interim report in detail
- Discussion on the requirements for the report

Achievements:

- Clear vision for the interim report

Problems:

- Research on SRS for the application

Tasks for the Next Meeting:

- Complete wire frame designs for the application
- Define the actors for the application

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 8

Start Time: 2:00 PM

Date: 14th December, 2025

End Time: 4:00 PM

Items Discussed:

- Interim report requirements
- Diagrams for interim report

Achievements:

- Application UI- approved

Problems:

- Research for dataset to train model

Tasks for the Next Meeting:

- Find a pre-existing dataset to train the model for exercise prediction
- Complete interim report

LMU ID: 23056153

Meeting No: 110

Start Time: 2:00 PM

Date: 4th January 2026

End Time: 4:00 PM

Items Discussed:

- Development work started
- APIs & database discussed

Achievements:

- Clearer idea regarding APIs and database setup

Problems:

X

Tasks for the Next Meeting:

- Complete working sign in/up page for the application with proper UI & Authentication

LMU ID: 23056153

Meeting No: 12

Start Time: 2:00 PM

Date: 11th January 2026

End Time: 4:00 PM

Items Discussed:

- Database and API connection for the application
- Discussed some about artefacts collection for the project

Achievements:

- Finalized database and APIs

Problems:

X

Tasks for the Next Meeting:

- complete core features of the application
(Face-detection)
- artifact

Meeting logbook Entry Sheet

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

Meeting No: 13

LMU ID: 23056153

Date: 18th February, 2026

Start Time: 2:00 PM

End Time: 3:00 PM

Items Discussed:

→ Development process of the application with proper project management, artifacts collection and documentation explained by supervisors

→ Supabase for project database and user authentication approved

Problems:

→ Manage Jira properly before next session

Tasks for the Next Meeting:

→ Project management proper format

→ Show progress in AI pose detection of application

→ Collect artifacts to present in documentation

Student Name: Ajoob Sagar Kansakar

Meeting No: 15

LMU ID: 23056153

Date: March 8th, 2026

Start Time: 3:00 PM

End Time: 4:00 PM

Items Discussed:

- Camera ratio issue on my emulator
- Pose detection landmarks for joints detection

Achievements:

- camera ratio position issue fixed

Problems:

- Fix camera ratio emulator position issue

Tasks for the Next Meeting:

- Complete pose detection body landmark detection
- fix camera ratio for application

LMU ID: 23056153

Meeting No: 16

Start Time: 3:00

Date: 15th March, 2026

End Time: 5:00

Items Discussed:

- Pose detection landmarks
- AI logic for exercise detection

Achievements:

- Body landmarks detection completed
- Switched to actual device from emulator

Problems:

- Maintain the artifacts

Tasks for the Next Meeting:

- Add AI logic for workouts
- Add an user guide in the application
- Fix the pose detection landmark points mirroring issue

BSc. Project Logbook

Student Name: Ajoob Sagar Kansakar

LMU ID: 23056153

Meeting No: 18

Start Time: 3:00 PM

Date: 29th March 2026

End Time: 5:00 PM

Items Discussed:

- ↳ Workout library for the application
- ↳ Workout demonstration feature for KasRat

Achievements:

- ↳ Rep-counter, feedback and error detection fixed for my application

Problems:

- ↳ Update UI for KasRat
- ↳ Add the remaining workout and implement user manual

Tasks for the Next Meeting:

- ↳ Complete all workout features for the application
- ↳ Update application Dashboard and showcase first draft of final report
